

Instruction Manual TVP

Thank you for buying a SAUTER test stand. We hope you are pleased with your high quality test stand with its big functional range. If you have any queries, wishes or helpful suggestions, do not hesitate to call our service number.

1. Included in delivery

- SAUTER TVP
- Various hooks

2. Warning

Intended use

The instrument you have acquired serves to determine the measuring value of the material to be measured. It is intended to be used as a "non-automatic" instrument, i.e. the material to be measured is manually and carefully attached at the instrument. The measuring value can be read off after a stable measuring value has been obtained.

Be careful about the limit load of test stand and force gauge. Do not go over the maximum force.

3. Technical Specifications
