FEATURES

- The high-resolution, professional ODC-84 range offers you an impressive 20 megapixel resolution which will give you bright detailed views of your sample. By using the integrated USB 3.0 interface, live images are transferred to the free PC software VIS 2.0 PRO or VIS 2.0 LITE for processing and documentation
- Power supply is through the USB interface so that there is no requirement for an external power source.
- The delivery includes a USB cable (length: 2 m), various eyepiece adapters and an object micrometre to calibrate the software
- Please order the appropriate C-mount adapter (only 1.0× possible) to fit your KERN microscope now
