KERN Pictograms

Internal adjusting: Quick setting up of the balance’s accuracy with internal adjusting weight (motor-driven)

Adjusting program CAL: For quick setting up of the balance’s accuracy. External adjusting weight required

Easy Touch: Suitable for the connection, data transmission and control through PC, tablet or smartphone

Memory: Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.

Alibi memory: Secure electronic archiving of weighing results, complying with the 2014/31/EU standard. For details see page 223

Data interface RS-232: To connect the balance to a printer, PC or network

RS-485 data interface: To connect the balance to a printer, PC or other peripherals. Suitable for data transfer over large distances. Network in bus topology is possible

USB data interface: To connect the balance to a printer, PC or other peripherals

Bluetooth* data interface: To transfer data from the balance to a printer, PC or other peripherals

WLAN data interface: To transfer data from the balance to a printer, PC or other peripherals

Control outputs (optocoupler, digital I/O): To connect relays, signal lamps, valves, etc.

Analogue interface: To connect a suitable peripheral device for analogue processing of the measurements

Interface for second balance: For direct connection of a second balance

Network interface: For connecting the scale to an Ethernet network

Wireless data transfer: between the weighing unit and the evaluation unit using an integrated radio module

Recipe level A: The weights of the recipe ingredients can be added together and the total weight of the recipe can be printed out

Recipe level B: Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display

Recipe level C: Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display, multiplier function, adjustment of recipe when dosages are exceeded or barcode recognition

Totalising level A: The weights of similar items can be added together and the total can be printed out

Percentage determination: Determining the deviation in % from the target value (100 %)

Weighing units: Can be switched to e.g. nonmetric units at the touch of a key. See balance model. Please refer to KERN’s website for more details

Weighing with tolerance range: (Checkweighing) Upper and lower limiting values, which allows retrieving and controlling all relevant parameters and functions of the device. KERN devices featuring KCP are thus easily integrated with computers, industrial controllers and other digital systems

Weighing with tolerance range: (Checkweighing) Upper and lower limiting values can be programmed individually, e.g. for sorting and dosing. The process is supported by an audible or visual signal, see the relevant model

Hold function: (Animal weighing program) When the weighing conditions are unstable, a stable weight is calculated as an average value

 GLP/ISO log: The balance displays serial number, user ID, weight, date and time, regardless of a printer connection

 GLP/ISO log: With weight, date and time. Only with KERN printers, see page 171–173

 Piece counting: Reference quantities selectable. Display can be switched from piece to weight

 GLP/ISO log: Reference quantities selectable. Display can be switched from piece to weight

 Power supply: Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, USA or AUS on request

 Power supply: 230V/50Hz standard EU. More standards e.g. GB, USA or AUS on request

 Battery operation: Ready for battery operation. The battery type is specified for each device

 Battery operation: With universal input and optional input socket adapters for A) EU, CH, GB B) EU, CH, GB, USA C) EU, CH, GB, USA, AUS

 Universal mains adapter: with universal input and optional input socket adapters for A) EU, CH, GB B) EU, CH, GB, USA C) EU, CH, GB, USA, AUS

 Mains adapter: 230V/50Hz in standard version for EU, CH. On request GB, USA or AUS version available

 Weighing principle: Tuning fork

 A resonating body is electromagnetically excited, causing it to oscillate

 Weighing principle: Electromagnetic force compensation

 Coil inside a permanent magnet. For the most accurate weighings

 Weighing principle: Single cell technology

 Advanced version of the force compensation principle with the highest level of precision

 Verification possible: The time required for verification is specified in the pictogram

 PAAS calibration possible (DKD): The time required for PAAS calibration is shown in days in the pictogram

 Package shipment: The time required for internal shipping preparations is shown in days in the pictogram

 Pallet shipment: The time required for internal shipping preparations is shown in days in the pictogram

Balances & Test service catalogue
Provides a complete overview of the KERN line of balances, test weights, and services such as verification, calibration, etc.

Medical scales catalogue
Complete line of medical scales, from infant scales to patient scales, chair scales and adiposity scales, as well as hand grip dynamometers, chemist’s balances and veterinary scales.

Microscopes & refractometers catalogue
Extensive range in the area of optical instruments, such as, for example, biological microscopes, stereo microscopes, metallurgical microscopes, polarisation microscopes as well as analogue and digital refractometers.

SAUTER measuring equipment catalogue
Test instruments for industry and commerce, such as force, coating thickness, material thickness and calibration service.

DAkkS calibration service brochure
Detailed information on topics pertaining to the calibration and verification of balances, test weights, and force measuring devices.

Your advantages

**fast**
- 24 hours delivery service for products in stock – ordered today, on its way tomorrow
- Sales & service hotline available from 8:00 am to 6:00 pm

**reliable**
- Up to 3 years warranty
- Precision in weighing technology for more than 175 years

**competent**
- DAkkS accreditation DIN EN ISO/IEC 17025
- Certified QM system DIN EN ISO 9001
- Authorisation for initial verification by the manufacturer 2014/31/EU
- Medical certifications DIN EN ISO 13485 and 93/42/EWG

**versatile**
- One-stop shopping: from pocket balances through to 15 t crane balance – everything from one supplier
- Find the product you want at lightning speed with the “Balance Quick-Finder” at www.kern-sohn.com

[Order hotline +49 7433 9933-0]
[Service hotline +49 7433 9933-199]
[Calibration hotline +49 7433 9933-196]
[Online Shop www.kern-sohn.com]
[E-mail order info@kern-sohn.com]
[Fax order +49 7433 9933-146]
[www.kern-sohn.com Information on current product availability, product data sheets, user instructions, useful knowledge, technical glossary, images and much for you to download, practical topic areas, which will guide you to the right product in your industry as well as a clever test weight and balance search engine.]

Our team of consultants will assist you from Monday to Friday from 8:00 am to 6:00 pm
Bench scales

Compact industrial weighing technology

Thanks to their compact dimensions, low weight, robust internal mechanism and the fact that they can be operated independent of mains power, bench scales can be used not only in a stationary situation, but also as mobile scales.

With weighing ranges between 3 kg and 65 kg, bench scales can cover a wide range of applications. Whether as a commissioning scale in the warehouse, for inventory purposes, on a production work station, in quality control, in small workshops, in service cars or in sales offices, bench scales are the first choice.

Durable stainless steel weighing plates, easy to read backlit displays, useful functions such as piece counting, PRE-TARE – subtraction of a known container weight, or interfaces to PC and printer, all these support the users in their daily work.

▸ Dual range scales cover a particularly wide range of applications. With these scales, the total weighing range is divided into 2 subranges and begins with a high resolution read-out in the fine weighing range. If this range is exceeded the balance automatically switches to the higher weighing range with the lower resolution read-out.

All KERN bench scales have an adjustment program (CAL) to adjust the accuracy. In this way, the high level of accuracy is guaranteed at all times, even during harsh everyday use. Find the right test weights for you, see page 184.

Touchscreen balances

The newest development for an even greater level of user-friendliness is the intuitive touchscreen operation, which is being integrated into new KERN models, see page 58/59 (FKT), 108/109 (IKT).

NOTE: a high-quality touchscreen bench scale range (KERN GAT, page 60/61) and touchscreen platform scale range (KERN IFT, page 110/111). Thanks to the intuitive touchscreen concept and multi-lingual operation (DE, GB, IT, ES, PT, NL, Fi, PL, RUS, SE, CZ) the balances can be used easily by inexperienced users, straightaway. For the professional user, the balances also provide convenient functions which permit a high level of individualisation and which thereby make operation significantly easier and quicker. Through a large memory, e.g. for item master data, weighing data etc. the balances are the ideal solution when working with a large range of goods or where there are high requirements for record keeping and documentation. Thanks to the high level of connectivity it is easy to connect barcode readers for item recognition, USB sticks for data storage or data transfer to PCs and networks using RS 232 or USB and this means that this range can be used for many different functions in Industry 4.0 applications.

▸ See the glossary on page 223–225

Quick-Finder Bench scales

Readability [d] kg

- Weighing capacity [Max] kg

- Weighing plate WxD mm

- Model

- Price excl. of VAT € ex works

- Page
Plain, mobile, uncomplicated

Features

- **High mobility**: Battery operation, compact, lightweight construction, recessed grips on the underside and low weight make this balance ideal for use in several locations.
- Particularly large weighing plate.
- **Very fast display**: steady weight values within 2 s.
- **Simple and convenient 2-key operation**.

Technical data

- **KERN ECB-N**: Large backlit LCD display, digit height 21 mm.
- **KERN ECE-N**: Large LCD display, digit height 21 mm.
- Dimensions weighing surface W×D 320×260 mm.
- Weighing plate material: KERN ECB-N: stainless steel, see larger picture.
- Overall dimensions W×D×H 320×300×60 mm.
- Optional battery operation, 6×1.5 V AA, standard, operating time up to 100 h, AUTO-OFF function to preserve the battery.
- Net weight: KERN ECE-N: approx. 1,6 kg; KERN ECB-N: approx. 2,6 kg.
- Permissible ambient temperature 5 °C/35 °C.

Accessories

- **Rechargeable battery pack internal**, operating time up to 30 h without backlight, charging time approx. 10 h, KERN PCB-A01, € 75,-.
- **Rechargeable battery pack external**, operating time up to 30 h without backlight, charging time approx. 10 h, KERN KS-A01, € 160,-.
- **Tare pan made of stainless steel**, ideal for weighing loose small parts, fruit, vegetables etc., W×D×H 370×240×20 mm, KERN RFS-A02, € 55,-.
- **External universal mains adapter**, with universal input and optional input socket adapters for EU, GB, USA, KERN YKA-03N, € 32,-.
- Further details, plenty of further accessories and suitable printers see **Accessories**.

## Bench scale KERN FCE-N

### Entry-level bench scale – mobile, practical, lightweight

#### Features
- **Simple and convenient 2-key operation**
- **Very fast display:** steady weight values within 3 s
- **Ideal as a compact letter and parcel scale, especially where space is limited**
- **Ideal as a grading, comissioning or simple checkweighing scale in production or dispatch**
- **Protective working cover** included with delivery

#### Technical data
- **Large LCD display, digit height 25 mm**
- **Dimensions weighing surface, plastic, \( W \times D \times H \)**
  - \( 252 \times 228 \) mm
- **Overall dimensions \( W \times D \times H \)**
  - \( 270 \times 323 \times 110 \) mm
- **Optional battery operation, 9 V-Block not included in scope of delivery, operating time up to 12 h, AUTO-OFF function to preserve the battery**
- **Net weight approx. 2.4 kg**
- **Permissible ambient temperature 5 °C/35 °C**

#### Accessories
- **Protective working cover**, scope of delivery: 5 items, KERN FCB-A02S05, **€ 40,-**
- **Stainless steel weighing plate**, robust, removable, for easy cleaning, KERN FCE-A01, **€ 35,-**
- **Rechargeable battery pack internal**, operating time up to 20 h without backlight, charging time approx. 10 h, KERN FCB-A01, **€ 50,-**

Compact bench scale with multi-purpose functionality and a high level of accuracy for use in industry, gastronomy and kitchen

Features

- **Simple and convenient 5-key operation**
- **Very fast display**: steady weight values within 3 s
- **Ideal as a**
  - compact letter and parcel scale, especially in constricted spaces
  - grading or commissioning balance or simple checkweigher in production or dispatch
  - Checkweigher in the catering trade, cafeterias, school kitchens
- **High mobility**: thanks to battery operation/rechargeable battery operation (optional), compact, lightweight construction, it is suitable for the use in several locations (production, warehouse, dispatch department etc.)
- **Protective working cover** included with delivery

Technical data

- Large backlit LCD display, digit height 25 mm
- Dimensions weighing surface, stainless steel, WxD 253×228 mm
- Overall dimensions WxDxH 270×345×106 mm
- Optional battery operation, 9 V-Block not included in scope of delivery, operating time up to 20 h, AUTO-OFF function to preserve the battery
- Net weight approx. 2.8 kg
- Permissible ambient temperature 5 °C/35 °C

Accessories

- **Protective working cover**, scope of delivery: 5 items, KERN FCF-A01S05, € 40,-
- **Rechargeable battery pack internal**, operating time up to 120 h without backlight, charging time approx. 16 h, KERN GAB-A04, € 40,-

⚠️ Price reduction
Bench scale KERN FKB-A

Bench scale up to 65 kg with large weighing plate

Features
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Particularly practical**: thanks to the large weighing capacities and compact dimensions, you can accurately weigh heavy loads in the most restricted of spaces. Useful for determining very small weight differences, such as, for example, gas wastage, abrasion of mechanical parts, rock samples, minerals, druses, silver etc.
- Large, robust weighing plate made of stainless steel, removable for easy cleaning
- **Freely programmable weighing unit**, e.g. display direct in special units such as length of wire g/m, surface weight g/m², or else
- **Protective working cover** included with delivery

Technical data
- **Large backlit LCD display**, digit height 25 mm
- **Dimensions weighing surface**, stainless steel, W×D: 340×240 mm
- **Overall dimensions W×D×H** 350×390×120 mm
- **Optional battery operation**, 9 V-Block not included in scope of delivery, operating time up to 12 h
- **Net weight approx. 6 kg**
- **Permissible ambient temperature** 5 °C/35 °C

Accessories
- **Protective working cover**, scope of delivery: 5 items, KERN FKB-A02S05, € 40,-
- **Rechargeable battery pack internal**, operating time up to 10 h without backlight, charging time approx. 10 h, KERN PCB-A01, € 75,-
- Further details, plenty of further accessories and suitable printers see **Accessories**

Checkweighing and portioning scale, also with EC type approval [M]

**Features**

- **Compact size**, practical for small spaces
- **High mobility**: thanks to rechargeable battery operation (optional), compact, lightweight construction, it is suitable for the use in several locations (production, warehouse, dispatch department etc.)
- **Weighing with tolerance range (checkweighing)**: a visual and audible signal helps with portioning, dispensing or grading
- **Totalising** of weights
- **Protective working cover** included with delivery

**Technical data**

- Large backlit LCD display, digit height 24 mm
- Dimensions weighing surface W×D 295×225 mm
- Overall dimensions W×D×H 320×345×125 mm
- Net weight approx. 3.0 kg
- Permissible ambient temperature GAB-N: 0 °C/40 °C
  GAB-DNM: -10 °C/40 °C

**Application examples**

- Small industrial scale for pharmacies
- Hand mixtures of tea, coffee, chocolates
- Portioning of dough, meat, fish, poultry, mixed salads in cafeterias etc.
- Mobile weighing of freshly picked fruit on site
- Checkweigher in supermarkets
- High-precision industrial applications, piece counting or stock-taking

**Note**: Official verification duty for commercial trade

Large, high resolution bench scale

Features

- Thanks to the high resolution of up to 360,000 points it is ideal for high-precision weighing in the industrial field
- Housing with robust aluminium diecast housing through, maintains the stability, protects the weighing technology elements and is robust enough to cope with everyday use
- Particularly practical: thanks to the large weighing capacities and compact dimensions, you can accurately weigh heavy loads in the most restricted of spaces. Useful for determining very small weight differences, such as, for example, gas wastage, abrasion of mechanical parts, rock samples, minerals, druses, silver etc.
- PRE-TARE function for manual subtraction of a known container weight, useful for checking fill-levels
- Freely programmable weighing unit, e.g. display direct in special units such as length of wire g/m, surface weight g/m², or else

- Model with resolution > 240,000 Pkt.: Level indicator and levelling feet for precise levelling of the scale, fitted as standard
- Protective working cover included with delivery

Technical data

- Backlit LCD display, digit height 18 mm
- Dimensions weighing surface, stainless steel, W×D 340×240 mm
- Dimensions housing W×D×H, 350×390×120 mm
- Optional battery operation, 6×1.5 V Size C not included in scope of delivery, operating time up to 40 h
- Net weight approx. 7 kg
- Permissible ambient temperature 10 °C/40 °C

Accessories

- Protective working cover, scope of delivery: 5 items, KERN FKB-A02S05, € 40,-
- Rechargeable battery pack external, operating time up to 30 h without backlight, charging time approx. 10 h, KERN KS-A01, € 160,-
- Tare pan made of stainless steel, ideal for weighing loose small parts, fruit, vegetables etc., W×D×H 370×240×20 mm, KERN RFS-A02, € 55,-
- Further details, plenty of further accessories and suitable printers see Accessories

</tbody>
</table>
Touchscreen industrial scale with enormous range of functions, also with EC type approval [M]

**Alibi memory**

- Ring memory for up to 49,152 measuring results (744 measuring results per day!)
- Saved measuring results cannot be changed or cleared. If the maximum memory capacity is reached, then the oldest value will be overwritten
- In addition to the measuring result, the date, time, tare value, a sequential number and the serial number of the balance are also saved
- Saved measuring results can be searched and recalled easily
- The alibi memory can also be used for applications which do not require verification
- Complies with WELMEC 2.5

**Easy input of text and values**

Using large keypad, e.g. up to 80 item descriptions, user name, packaging weights for tare containers etc.

**80 memories for each mode**

e.g. for Checkweighing, PRE-TARE, reference weight, target value when dispensing, item descriptions, user name, weights for tare containers, etc. Easy to enter using the large-scale keypad

**Weighing with tolerance range (checkweighing)**

Input of an upper/lower limit value. A visual and audible signal assists with portioning, dispensing or grading
Features

- **Convenient recipe weighing:** 99 In recipes with 10 components each can be stored in plain text. There is a function to adjust the other components if the initial weight was too high. The actual values and the desired values as well as the proportionate percentages can be printed afterwards.
- **Multiplier function:** recipes with the ingredient weights recorded as percentage values can easily be replicated by entering a new target weight. The ideal solution for the preparation of larger containers, bulk packs etc.
- **Rapid function** for shortened stabilisation time with reduced readability
- **16 print forms** which can store up to 20 different information, such as, e.g., date, time, operator, item, net, tare, gross, PCS, target weight, PRE-TARE etc. The print forms can be generated easily in an Excel list at the PC and transferred to the balance using the RS-232 interface
- **Control outputs (optocoupler, digital I/O)** to connect relays, signal lamps, valves etc. (35 V/80 mA)
- **Protective working cover** and hook for underfloor weighing standard

Technical data

- **Large backlit LCD touch display, digit height 18 mm, screen diagonal 5,8” (127×74 mm)**
- **Dimensions weighing surface, stainless steel, WxD 340×240 mm**
- **Overall dimensions WxDxH 350×390×120 mm**
- **Optional battery operation, 6×1.5 V Size C not included in scope of delivery, operating time up to 20 h**
- **Permissible ambient temperature 10 °C/40 °C**

Accessories

- **Protective working cover**, scope of delivery: 5 items, KERN FKB-A02S05, € 40,-
- **Rechargeable battery pack external**, operating time up to 20 h without backlight, charging time approx. 10 h, KERN KS-A01, € 160,-
- **RS-232/Ethernet adapter** for connection to an IP-based Ethernet network, KERN YKI-01, € 290,-
- **RS-232/USB adapter**, to connect peripheral devices with USB connection, KERN AFH 12, € 85,-
- **Signal lamp** for visual support of weighing with tolerance range, KERN IKT-A04, € 260,-
- **Further details, plenty of further accessories and suitable printers see Accessories**

Modes

- 1. Weighing
- 2. Counting
- 3. Dispensing
- 4. Recipe weighing
- 5. Checkweighing
- 6. Totalising with daily total
- 7. Percentage determination
- 8. Animal weighing
- 9. Surface weight
- 10. Rapid function, not for [M]

Functions

- **Capacity display with** 1–2, 3–7, 8–9
- **Dispensing aid (−/+), with** 1, 2
- **Net/gross display, permanent, with** 1, 3–7, 8–9
- **Variable reference quantity, with** 2
- **Automatic reference optimisation, with** 2
- **PRE-TARE numerical or from the memory unit, with** 1–7, 9
- **Entering of item or batch description, operator etc., with** 1–7, 9
- **Freely programmable weighing unit, e.g., display direct in special units such as length of thread g/m, grammage g/m2, or similar, with** 9
- **Date/time, with** 1–9
- **Statistical function, with** 1
- **GLP printout, with** 1–9
- **Individual formatting of up to 16 printer forms, recipes, operating mode master data in MS Excel, import via RS-232, for examples, see the internet, with** 1–9

Bench scales 59
Bench scales KERN GAT

KERN easytouch bench scale – the intuitive way to weigh

Convenient piece-counting function
Komfortable Stückzähl-Funktion
Standard use: Direct input of the reference quantity or the reference weight
Professional use: Recall of items to be counted from the database with all relevant additional data such as piece weight, name, reference quantity, tare container weight, tolerances. Which means a super-fast sequence when counting: select item – load – count – done!

Fill-to-target function
Programmable target quantity or target weight. A signal will be displayed when the target value is reached

Convenient weighing with tolerance range
(Checkweighing)
Standard use: Direct input of the tolerances in grams or percent
Professional use: Recall of items from the database with all relevant additional data such as piece weight, name, reference quantity, tare container weight, tolerances. That leads to a super-fast sequence when portioning, dosing or sorting: Select item – load – check – done!
**Features**
- High-quality, rapid processors allow efficient, delay-free operation
- Thanks to the intuitive touchscreen concept and multi-lingual operation (DE, GB, FR, IT, ES, PT, NL, FI, PL, RUS, SE, CZ) the balance can be used easily by inexperienced users, straightaway. For the professional user, the balance provides convenient functions which permit a high level of individualisation and which thereby make operation significantly easier and quicker.
- Through a large memory (256 MB), e.g. for item master data, weighing data etc. the balance is the ideal solution when working with a large range of goods or where there are high requirements for record keeping and documentation.
- Thanks to the high level of connectivity it is easy to connect USB sticks for data storage or data transfer to PCs, scales and networks using RS-232 or USB. This means that this range can be used for many different functions in Industry 4.0 applications.
- Convenient recipe weighing
  - Standard use: Direct input of the recipe ingredients in grams or percent
  - Professional use: Recall of items from the database with all relevant additional data such as target value, tolerances, name, tare container weight. That leads to a super-fast sequence when recipe-weighing: select recipe – weigh – done! A graphic signal helps when dosing individual recipe ingredients. An information column on the lefthand edge of the screen allows you to see at a glance which ingredients have already been weighed (proportionately).
  - Recipes can be easily transferred via USB stick between the KERN touchscreen scales GAT or IFT
- Take-Out function: allows you to remove the same quantity every time, e.g. when portioning in cafeterias or when picking small parts. A colour bar graph shows whether the quantity removed is below the limit or within the specified tolerances (blue) or is above the limit (red).
- Classifying: Similar objects are automatically classified according to their weight into predetermined classes.
- AUTO-PRINT function: Automatic printing of the weighing when the weighing value remains unchanged. The print function as well as the content of the print-out can be adjusted individually depending on the operating mode.
- Searching and remote control of the balance using external control devices or computers with the KERN Communication Protocol (KCP). KCP is a standardised interface command structure for KERN balances and other instruments which allows you to recall and manage all relevant parameters and device functions. You can therefore simply connect KERN devices with KCP to computers, industrial control systems and other digital systems. In a large number of cases the KCP is compatible with the MT-SICS protocol. Only possible through data interface RS-232, other interfaces on request.
- The battery compartment of the device can be opened easily, which means it is possible to change the batteries without having to use any tools or break any verification seal labels etc.

**Technical data**
- Large backlit LCD touch display, digit height 12 mm, screen diagonal 7" (155×85 mm)
- Dimensions weighing surface, stainless steel, W×D 300×225 mm
- Overall dimensions W×D×H 315×350×120 mm

**Accessories**
- Rechargeable battery pack internal, operating time up to 40 h with backlight, charging time approx. 12 h, KERN GAB-A04, € 40,-
- Further details, plenty of further accessories and suitable printers see Accessories
